Blitzkrieg

From the initial Wehrmacht operations in Spain, to the conquest of the whole European continent you shall lead the Blitzkrieg, the "lightning war". The time has come to deal with Poland. France and Britain will have to pay for the disgrace of the Treaty of Versailles. The battles from Norway to North Africa and from the British Isles to the Soviet Union are awaiting you. Using the power of your aerial and naval forces, take over the Atlantic and the Mediterranean. Britain should be deprived of the role of "Mistress of the sea". Having seized Europe, you will receive the key to the "Drang nach Osten", crush the hordes of the hated Bolsheviks in the fire of unprecedented battles! Reich will finally establish its power over the continent by occupying the territories from the Atlantic to the Urals and from Norway to North Africa. The world is waiting for a new order led by the "Großdeutschland".

Heinz Guderian

"Schneller Heinz" – the king of tank warfare. He received his nickname for his ability to destroy enemy troops in an incredibly fast pace. He was the creator of the Wehrmacht's tank forces, and of the very theory of Blitzkrieg. Guderian is a second to none in the art of motorized warfare. His tanks advance at an unthinkable pace toward the enemy, blocking communications, destroying

Combined with the Roma Sur♥♥♥♥♥♥ MOD, it makes for a perfect TW experience.. The game is beautiful, interesting and downright adorable! However, I had no idea what I was doing or what my objectives were. I would recommend having a Main Menu with different game modes and a settings option, additionally having text to identify what the pictures mean in the settings menu. The reasons I am saying this is that when I loaded up the game for the first time it dropped me in the middle of a field expecting me what to do with little direction of what I needed to do or where I needed to go. It then drops you into another massive field after entering a portal (it just makes no sense).

The game obviously needs improvements but I do understand its a work in progress. I look forward to seeing how this game turns out, it has great potential :D. Decided to play this before watching the original short it was based on. (The short has a little more at the end though)

Quite an interesting "story", filled with some questions on what is to be human and the nature of emotions, though requires someone to want to explore these concepts in afterthought rather than being spoonfed during the experience.

And really, it's just an experience, you are "seated" in one place and it plays out.

Can only really recommend it if you're into the whole sci-fi horror genre, but hey, it's free!. It is a fun and beautiful vr arcade shooter with a variety of character types and weapons. I look forward to seeing this continue to evolve.

Updated: Dead game. Developer didnt finish it - dev stopped about a year ago.. Horrid music and looks coupled with a super simple gameplay. This game should in fact be free.

I actually closed the game and the process was still on so yeah... Pretty bad.. Got It To Support Devs. 1st impression -- haven't really played it enough for a review.

love - Deep Space Waifu - wanted another game like it...

ignored negative reviews - purchased... sigh...

i hate to say it - but no - just stick with Deep Space Waifu...

. For the Nancy Drew fanatics who have been loyal detectives for the last eighteen years, this game will be great for you if you started with the original SCK and have continued onward. As many of you remember, the original SCK seemed like a glitchy cartoon with a specific game killing glitch that if activated, kept you from being able to continue the game. The good thing about this game is that the glitch doesn't seem to be there. The flow of this game was very nice. There is a new character that was not involved in the original SCK, and a brand new ending so players don't think it is just the same game only with much better graphics. The downside to this game, however, is that the storyline is shorter than its predecessors. You will not get 20+ hours of gameplay out of this, since my steam account says I have only played for 2.2 hours. THAT IS ON SENIOR DETECTIVE MODE btw! It is not like games such as Treasure in the Royal Tower or Shadows At The Waters Edge (which are two fantastic ND games if you have not played them yet) where it is easy to spend a few days trying to solve. I am glad the game was only \$6.99 in this instance because if I had paid \$20 for this game, it would have been a rip off, solely because the storyline is so short.

Final Verdict: If you want to play the updated version of the original SCK, then I recommend this game. If you are looking for a game that will last more than two hours to solve, I recommend the following Nancy Drew Games instead:

1. Treasure in a Royal Tower
2. Stay Tuned for Danger
3. Shadow At The Water's Edge
4. Ghost of Thornton Hall
5. Curse of Blackmoore Manor. I love this game but im refunding it til i can play with a controller soz m8s. This is the absolute best find I've made on steam. If it had multiplayer lobbies I would play it ALL. DAY. Currently recruiting friends to play with me because the multiplayer is some of the most fun I've ever had. I don't even know how to describe it. Force field, disintegrators, force gun, rope swing, dig, build, OH MY GOD BUY THIS GAME.

And I didn't even mention the single player campaign\puzzles are INCREDIBLE.

10V10.

A very very great game. This feels like the spiritual successor to Putt-Putt Joins the Parade, as it is the only other Putt-Putt where you explore Cartown. Cartown is a bright and lively environment full of fun and memorable characters. Also has a nice soundtrack. The puzzle solving aspect though not too challenging, also isn't too easy. The race at the end is a neat feat of engineering that they managed to do it within the SCUMM engine. Very solid Putt-Putt, though I prefer Travels Through Time, this one is also worth your time.. The idea might have been a good one but it turns out that the execution was another thing entirely. The car designed around ramming doesn't really click since ramming is \u2665\u2665\u2665\u2665ed and rarely does anything, all the missions are timed, which really doesn't work when you can go up to a minute without seeing any enemies, and the way you control your car is more fiddly than an actual car.

Hired OP is basically useless because Form up is a janky thing, and the missiles are very RNG on if they are actually going to hit the guy twenty foot in front of you or just spazz out and go wherever.. A tower defense game, that is a poor copy of Kingdom Rush 1 and 2. Without using a decent game engine they are stuck with poor scaling of sprites and a fixed resolution. Game play is standard tower defense with no effort given to building of the defenses. If you like tower defense games and are willing to look past the graphics and the little problems with the game I would pick this up. I am not willing to look past the faults. This is a no for me.. This product is free. As such, the determination for if it is recommended, is it worth your time?

This is not a game, but simply an interactive museum. It's short, but very interesting. If you've ever enjoyed an art museum in real life, this will let you go to one without having to deal with another person. The 3D scans of the artwork are beautiful.. It's basically rock , paper , scissors but with more gameplay it is a mobile game but we should all be used to this on steam by now just get over it they're free anyway the game so far isn't pay2win the characters you buy are just for show just the upgrades change how good or bad you will be you can easily play the long story mode the online is just as simple just a little harder with predictability overall so far in my gameplay I haven't run into any p2w things.. 20p to end game =>)). I was an early alpha/beta tester of this game and received the product for free since December 2016

This game is really fun, due to how fast paced it can be, and offers a challenge, by locking each world based on your time.

It's a Low Poly style [which, i adore!] and let's just say, if you want fast-paced parkour, **PLAY. THIS. GAME!**. great fun just like the old days basically bomberman. This game is great! Developer has put so much into it with voices and story that you can ignore RPGmaker-style gameplay if you are not freak for old school games. Even tho I had the game, I bought one for my little cousin so I can support this Developer. Great job!
